

# who can add my pet to the NZCAR?

Your pet can be added to the NZCAR at over 600 outlets throughout New Zealand. These include:

- 🌸 Your local NZVA Vet Clinic
- 🌸 Your local SPCA
- 🌸 Approved Pet Shops
- 🌸 Approved Breeders
- 🌸 Approved Welfare Charities and Local Authorities
- 🌸 and by other qualified implanters.

Please consult your approved implanter for the total cost of implant and registration charges.

As well as dogs and cats, the NZCAR accepts ALL kinds of microchipped companion animals, including rabbits, donkeys, horses, ferrets, birds, fish, lizards, goats, turtles, tortoises and sheep.

microchipping  
and registration  
should be one step

Make sure **you**  
register with the  
**NZCAR** when  
microchipping  
your pet!

The NZCAR is the leading New Zealand based animal repatriation system.

animal repatriation service

# how does the NZCAR work?

## BEFORE YOUR PET GOES MISSING

- 1. REGISTRATION:** Register your pets on the NZCAR database at the same time as they are microchipped.

## AFTER YOUR PET GOES MISSING

- 2. YOUR PET IS FOUND:** Found pets are taken to one of the 600 organisations who can access the NZCAR database.

- 3. YOU ARE CONTACTED:** We can call, email or text you with the great news that your loved pet is safe.

- 4. YOU ARE REUNITED:** Owner and pet are reunited and everyone is just happy to be back together again.

The NZCAR is available 24/7 at [www.animalregister.co.nz](http://www.animalregister.co.nz), or on our **0800 LOSTPET** phone line. You can also manage your contact details online 24/7 through our web site. Or, if your pet is adopted by new owners, you can transfer the contact details online easily too.

In New Zealand a found pet is most often taken to the nearest Vet Clinic, SPCA or other animal welfare agency. Over 95% of vet clinics and over 75% of SPCA's in New Zealand use the NZCAR. On top of this, local councils, pet shops, implanters and other animal organisations are also using the NZCAR, meaning there are over 600 organisations who can help get your missing microchipped pet home.

Additional details such as medical records, second contact, breeder info and detailed descriptions can also be stored

## microchipping works!

By registering **your** pet with the NZCAR you can help **other** companion animals

## How?

Profits from the **NZCAR**

go to support **New Zealand based Animal Charities**

### DID YOU KNOW!

During the 2011 earthquake the NZCAR assisted Canterbury SPCA by providing an 0800 lost pet service for all pets, chipped and non-chipped.

Of the hundreds of animals dealt with we managed to get 25% of non-chipped pets home within 2 to 3 days. However we managed to get **85%** of chipped pets home in an average of **1 to 2 hours!**

The NZ Companion Animal Trust is managed by the NZCAR stakeholders. For info on making funding applications, visit [www.nzcac.org.nz](http://www.nzcac.org.nz)
