ANIMAL REGISTER

# Instructions for Implanters

**These forms should only be used for NEW Registrations on the NZCAR.  
They are NOT to be used as certificates of ownership or  
handed to owners as certification of microchipping**

- Please print all details clearly.
- Double check contact details, especially email and primary phone.
- All fields with an \* are required.
- Confirmation of the form being entered is only given when an email address is supplied. We strongly recommend to owners this is included.
- An email address is also required for owners to be able to update their contact details online. When an update request is made the password for access is sent to the email address we have on file.
- This form can also be used to include 'PiP' Facial Recognition with a new registration.

## **Recommended Microchip Implantation & NZCAR Registration Procedure**

It is essential that the aims and objects of this database be respected and preserved, that is to repatriate lost/injured animals with their owners. Accordingly we would request that you observe the following procedures.

1. Scan animal first for an existing microchip.
2. Scan microchip to be inserted to verify number with barcode number.
3. Use ISO standard microchips only.
4. Implant Cat/Dog between the shoulder blades and mid-dorsum.
5. Scan to verify that the microchip is in the correct place on the animal.
6. Attach barcode to this form.
7. Fully complete Register Application Form.
8. Photocopy completed form.
9. Give the Photocopy to the Owner and retain the original for your records.
10. Either enter into NZCAR Online yourself (within 24 hours) OR fax the form to Animal Register Limited (within 24 hours).
